---

Dear Ms Ortiz,

Thank you for your communication. I requested the information for my meeting with R6 on 5 September 2013.

I did not receive any acknowledgement from R6 for this FOIA request or the one subsequent to it.

This is the first communication I have had from R6 I this matter, other than to decline my request for expedited response from EPA.

What was the original date by which EPA R6 originally committed to respond to this request? I was not informed.

Since the new date for EPA response is one day before I leave to come to Dallas, please hold any materials to be mailed for my pickup in person when I arrive in Dallas, since as mentioned I need the materials for my merit there.

I also need the response to my other more recent FOIA request; please advise the status, as it has not been acknowledged by your office.

The series of delays, mistakes and omissions I have experienced in this process of requesting public information from your office is not an "inconvenience;" it materially affects my ability to accomplish my objectives, which I strongly believe are in the public's best interest.

Again, please advise the original and revised response dates for all FOIA requests I currently have pending with EPA R6. If I do not receive the responses by the meeting date, I will not be able to accomplish fully my purpose for traveling there.

Sincerely,

Curt Grisham

Good Afternoon Mr. Grisham,

This e-mail is to notify you that EPA will be taking a 10-day extension for the above mentioned FOIA. This will put the new target date at 09/03/13.

The justification for this extension is:

  X   the need for consultation, which shall be conducted with all practicable speed, with another agency or EPA office having a substantial subject matter interest in your request. (5

USC 552(a)(6)(B)(iii)(III))

I am sorry for any inconvenience this may cause.
